

Light Instruments Ltd. Signs Exclusive Distribution Agreement with GASOM Dental Solution

GASOM to start selling LiteTouch™ in Romania

Light Instruments is delighted to announce a new collaboration with Romanian dental distributor - GASOM Dental Solution.

GASOM Dental Solution is a dynamic company that serves the Romanian dentistry market by promoting implant-prosthetic and full surgical dental solutions. GASOM's main goal is to become a real partner for the dental specialists by offering complete solutions and sustaining them with high – précised components, manufactured by complex technologies, with superior quality, based on engineering processes that use the principles of anticipating the specific problems and solving them without compromise but with cost-efficiency.

“We have been permanently guided, in our journey, by the willing of becoming one of the main suppliers of novelties for the Romanian dentistry, continuously looking for excellence in technological innovations in all our products and solutions. We welcome LiteTouch™ and Light Instruments on our journey, believing with full confidence, that they will join us as a real partner in bringing Romanian dentistry at one of the highest levels of innovation and quality” - Mr. Amit Moshe, CEO of GASOM Dental Solution.
