Conclusion:
Clinical trials using lasers to treat peri-implantitis

- Clinical trials using lasers to treat peri-implantitis
- Clinical trials using lasers to treat peri-implantitis
- Clinical trials using lasers to treat peri-implantitis
- Clinical trials using lasers to treat peri-implantitis

References:

From the technological evolution, the laser is a unique tool and the technology in the treatment, but it has many things that you should know about the laser, and the laser is not a magic wand, it is a tool that you should use it properly.
